

Free the Cookies

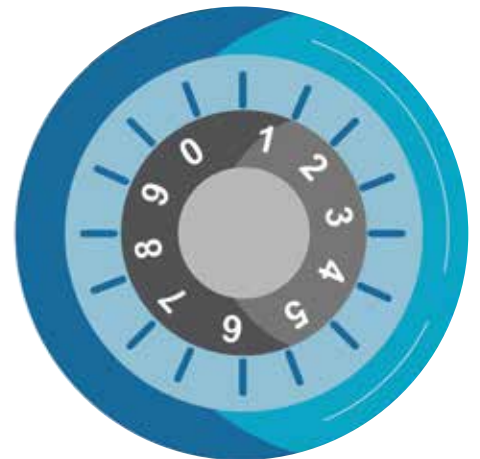

Delicious cookies have been locked in a safe. Unfortunately, the 4-digit combination has been forgotten. Only an obscure note was found near the safe.

the digit of hundreds is
2 times the digit of ones but
a third of the thousands.

the digit of tens is 3 times
the digit of ones but half of
the thousands.

the sum of all the digits is
4 times the tens.

Solve the riddle and save the cookies!
